SOLID WASTE FACILITY PERMIT

13-AA-009

FACILITY NAME

Niland Cut and Fill Site

OPERATOR

County of Imperial - Department of Public Works

FACILITY LOCATION

Cuff Road, 4 miles N.E. of Niland

PROPOSED

SOLID WASTE APPROVAL

9-11-85

ENFORCEMENT AGENCY

APPROVAL

9-11-85

INDUSTRIES

1. This facility is an existing (prior to August 15, 1977) 80 acre Class III sanitary landfill; site life is expected to exceed 50 years. The cut and cover method of operation is utilized. The facility is located at the east side of Cuff Road northeast of the Highline Canal, three (3) miles north east of Niland. The disposal site receives less than 1 ton per day with an expected waste volume to increase about 2 1/2 percent annually. This permit authorizes up to 5 tons per day. The site is open 24 hours a day 7 days a week. No permitted salvage operations are conducted. At present the site is being covered once every two (2) weeks by Public Works.

Types of wastes received at the site include:

- a. Residential refuse. Construction and Demolition, tires, and inert materials.
 - b. Empty pesticide containers which must be triple rinsed and punctured prior to being transported to the site containers must be placed in a separate fenced trench.
2. Design and operation of this facility are as specified by the Report of Disposal Site Information dated March, 1985. There are no proposed significant changes in design or operation.
 3. Land within 1,000 feet of the site is zoned open space.
 4. This facility's design and operation are currently in compliance with State Minimum Standards as determined by physical inspection made on April 11, 1985.
 5. The Local Fire Protection District has determined that the landfill is in compliance Public Resources Code Sections 4373 and 4374.

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

TITLE

DATE Director

6. This permit is consistent with the Imperial County Solid Waste Management Plan and with the State Minimum Standards for Solid Waste Handling and Disposal.
7. The following documents condition operation of this facility:
 - a. California Regional Water Quality Control Board, Colorado River Basin Region: Waste Discharge Requirement No.83-22
 - b. Recreation or Public purposes lease No. R3637 issued by the Bureau of Land Management.

CONDITIONS:

1. This facility must comply with the State Minimum Standards for Handling and Disposal.
2. This facility must comply with all federal, state, and local requirements and enactments.
3. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

Prohibitions:

The following actions are prohibited at the facility:

1. Disposal of hazardous wastes, except empty pesticide containers as approved by the Regional Water Quality Control Board-Colorado River Basin Region.
2. Open burning.
3. Scavenging.
4. Disposal of liquid wastes.

Specifications:

No significant change in design or operation from that described in Item #1 and #2 of the Findings Section is allowed.

This facility has a permitted daily capacity of up to 5 tons per day and shall not receive more than 5 tons per day of solid waste unless it first obtains a modification of this permit. The remaining capacity of the landfill is 131,000 cu.yds.

Provisions

1. This permit is subject to review by the enforcement agency, and may be suspended, revoked, or modified at any time for sufficient cause.

Self-Monitoring Program

The site operator or his agent shall keep records as specified below and make record available to the enforcement agency upon request:

1. Quantity and types of wastes received at the site per quarter.
2. Record of site development showing placement of completed cells.
3. Quantity and types of wastes salvaged per quarter as applicable.

At the discretion of the Local Enforcement Agency, landfill gas probes shall be installed for detection of migration. If needed, a landfill gas control system shall be installed.
